

CleverEV 7kW AC electric vehicle charger

The CleverEV 7kW AC electric vehicle charger is the world's smallest 7kW smart charger. It is recommended for home charging, as well as for hotel and office parking areas, where it can fully charge an electric vehicle battery within just a few hours.

Product code: CleverEV7kW

Brand: EVPoint

445 EUR

Netto price: 350 EUR

Description

The CleverEV 7kW AC electric vehicle charger is the world's smallest 7kW smart charger. It is recommended for home charging, as well as for hotel and office parking areas, where it can fully charge an electric vehicle battery within just a few hours.

The charger requires a 1-phase, 32 A power supply for connection. Charging speed and power output can be controlled via the CleverEV app (clevev.net), and multiple chargers can share the available electrical capacity thanks to CleverEV's power management service.

The charger also supports paid charging: through the CleverEV app, users can pay the owner directly for the charging session using their own bank card.

Declaration

- **Brutto weight:** 1.1 kg
- **Brand:** EVPoint

Specification

- **Width:** 12.2
- **Length:** 9
- **Height:** 18.7
- **Count of phases:** 1x 32A
- **Model:** CEV7 S2

- **Maximum power output:** 7.4 kW
- **Charger interface:** Type 2 IEC 62196-2
- **Communication protokoll:** OCPP 1.6j
- **Communication modules:** WLAN 802.11 b/g/n/e/i (2.4 GHz); Bluetooth BT4.2; Ethernet
- **Color:** Black
- **Warranty:** 24 months
- **Ambient temperature:** -25 °C +60 °C
- **IP protection:** IP54
- **Mounting type:** Wall mounted
- **Built-in electronic protection:** Class B, RCD DC < 6mA and AC < 30mA; +- 207V-253V checking
